New York Stock Market

New York, October 17.—The uncertain and confused state of sentiment in the security market at present was shown by the fluctuations of stocks to-day. Prices declined sharply in the morning, seemingly for no better reason than what were construed as indications that the Department of Justice was about to make further moves against large corporations. In the afternoon the market recovered, apparently for no reason at all. The while movement was a small one, and the range of prices of most stocks was not more than a point. The only activity was on the seiling side. The market seemed to be altogether in the hands of professional traders.

Stocks were sold at the opening on the report that the Federal authorities were soon to take action against the United States Steel Corporation, as well as on account of the attitude of government officials toward the American Tobacco plan of reorganization. The Attorney-General's statement that so plan would be approved by the government unless it permitted complete competition was disappointing to traders who had assumed that no scheme of disintegration would be presented to the court unless it had previously received the sanction of the Department of Justice.

There was no busis for the report that a dissolution suit was to be filed at once against the steel corporation, but selling of the steel stocks exerted a depressing effect upon the whole industrial list. Foreign houses were heavy sellers of United States Steel carly in the day. Denial of the steel story helped the recovery, which set in before noon, and not only were complete recoveries made, but the best prices of the day were toucned just before the close. Union Parche made a

In petore noon, and no only the best prices of the day were touched just be-fore the close. Union Pacine made a

STATE'S PROGRESS BREAKS RECORD

Governor Kitchin Opens North Carolina Fair at Raleigh.

The Times-Dispatch.]

Raleigh, N. C., October 17.-In open ing the fifty-first annu: State Fair ing the fifty-first annu: State Fair to-day, Governor Kitchin declared that North Carolina's agricultural progress the past decade has been wonderful, and that of the past year has broken all records, with a spiendid crop of wheat, very good corn yield, and a cotton crop considerably more than an average.

Touching political matters, he congratulated his hearers on the awakening of the public conscience, which has, he declared, reached the national government, and is developing control of monopolies and trust disintegration, that he conceives to be forerunners

of monopoles and trust disintegration, that he conceives to be forerunners of the return of healthy competitive commercial conditions.

In the midst of the address, Governor Harmon came upon the grandstand, and there was a suspension of the speaking for the people to applaud and otherwise do honor to the disand otherwise do honor to the dis-guished guest. The attendance today was well up to the average open-ing day, with indications that the crowds would be a record-breaker. It is raining to-night, but forecast is for clearing weather.

[Special to The Times-Dispatch.]
Fayetteville, N. C., October 17.—The Payetteville Chamber of Commerce is the originator of a pism to elevate the price of cotton to a figure, allowing a fair renumeration to the producer. This pian is contained in a resolution passed by the chamber urging each citizen of Fayetteville, merchant or clerk, manufacturer or mechanic tradesman or trofessional man, who can by any possible means do so, to buy at less one bale of cotton on the Fayetteville market, and as long as he is able to do without the furfly is invested in it to let that bale stand before his door as a sign of his friendly co-operation with the producer of the South's greatest crow.

It is estimated that if Southers towns

and cities generally would adopt this plan at least 3,000,000 bales would be bought by individuals who are not cotton buyers, and individuals who are not cotton buyers, and that probably haif of this amount would be held until spring. This, it is pointed out by the Chamber of Commerce, would not only appreciably raise the price of the fleecy staple, but would bring about a new

needy staple, but would bring about a new era of increased good feeling and co-operation between the town and country.

"The cause of the farmer," mays the Chamber of Commerce, "is the cause of all, and when the farmer suffers the whole country suffers. The merchants and business men generally are taking hold of the matter heartily, and confidently believe the far-reaching plan of the Chamber of Commerce will be successful.

The Will Of Chief Justice Marshall

The great expounder of the Constitution of the United States, is on file in this city, and it is well worth reading. It is interesting from start to finish, and his great affection for his wife, who predeceased him, is in evidence throughout the instrument. Among other things, he gives to each grandson named John 1,000 acres of land. The balance of his estate is equally divided among his five children.

The point of this advertisement will now be seen. THE SHARE TO HIS ONLY DAUGHTER HE LEFT IN TRUST WITH THIS STATEMENT: "COMMON PRUDENCE DICTATES THAT A DAUGHTER SHOULD BE PROTECTED FROM DISTRESS, WHAT-EVER CASUALTIES MAY ARISE."

In the vault of this Company there are many wills on file in which the testators have safeguarded the estates of their daughters by placing them in trust with this Company. Have you done so?
